

## Immunisation for All Ages

# Immunisation for All Ages in an Evolving Pandemic: *Building Resilience, Capacity, Confidence and Vigilance*

Join us for a session to discuss:

The need to prioritise immunisation throughout life, its role in prevention and healthy ageing, and how we can achieve this

How to increase public confidence in vaccines, and communicate the value of immunisation through trusted stakeholders

The impact of the current pandemic on routine immunisation across all age groups, and how to remove barriers to access and expand infrastructure to facilitate this
