A LOOK BACK

WORLD HEALTH SUMMIT 2023
BERLIN, GERMANY & DIGITAL
OCTOBER 15-17
“I urge nationwide and worldwide prevention efforts. Prevention is one of our most powerful tools to combat health disparities and inequalities.”

CHIKWE IHEKWEAZU
Assistant Director-General for the Division of Health Emergency Intelligence and Surveillance Systems in the Emergencies Programme, World Health Organization (WHO)

“This idea of being country-led is absolutely critical. Countries know what they need, what needs to get done and we need to be there to help them.”

CATHERINE RUSSELL
Executive Director, United Nations Children’s Fund (UNICEF)

“A different path is possible, mainly because a lot of women and young girls are speaking up in a way that they didn’t do in the past.”

INGER ASHING
CEO, Save the Children International

“We want to go far, fast, and together. That’s really the theme of this conference.”

CHIKWE IHEKWEAZU
Assistant Director-General for the Division of Health Emergency Intelligence and Surveillance Systems in the Emergencies Programme, World Health Organization (WHO)

“The main purpose of the pandemic fund needs to be to bridge the equity gap so that the most vulnerable get access at the same time as everyone else in the world.”

JAYASREE K. IYER
CEO, Access to Medicine Foundation

“The ultimate goal is that we get to a point where every country is able to pay for their own AIDS response and that that AIDS response is human rights based, person-centered.”

CHRISTINE STEGLING
Deputy Executive Director, Policy, Advocacy and Knowledge Branch, UNAIDS

“The true spirit of the World Health Summit was to create a platform for multiple stakeholders to come together, to learn from each other, to challenge each other, but also to partner.”

ELHADJ AS SY
Chair of the Board, Kofi Annan Foundation

“It’s not only about innovating and about making healthcare better and doing new things, but it’s about putting as much energy into bringing what is already there to those who really need it.”

BERND MONTAG
CEO, Siemens Healthineers AG

“01 - Racism in the Pandemic”

AWA MARIE COLL SECK
Minister of State to the President, Senegal

“It’s a unique opportunity for the entire NCD global health system to get digitization forward.”

HEYO KROEMER
CEO, Charité - Universitätsmedizin Berlin

“The problem [of racism] needs to be resolved by all of us. Not just one group will be resolving problems.”

AWA MARIE COLL SECK
Minister of State to the President, Senegal

World Health Summit Throughout the Year  26
ABOUT THE WORLD HEALTH SUMMIT

3 DAYS · 50+ SESSIONS · 100+ NATIONS · 300+ SPEAKERS · 3,000+ PARTICIPANTS ON-SITE · 10,000+ PARTICIPANTS ONLINE

The World Health Summit is the unique international strategic forum for global health. Held annually in Berlin, it brings together stakeholders from politics, science, the private sector, and civil society from around the world to set the agenda for a healthier future. The World Health Summit was founded in 2009, on the occasion of the 300th anniversary of Charité-Universitätsmedizin Berlin.

PRESIDENTS
• World Health Summit President
  Axel R. Pries
• Annual International President
  provided by the M8 Alliance, on a rotating basis

PATRONS
The World Health Summit is traditionally held under the patronage of:
• Chancellor of the Federal Republic of Germany
• President of the French Republic
• Director-General of the World Health Organization (WHO)

SPEAKERS AND PARTICIPANTS
• Leading scientists and medical professionals
• Ministers and civil servants
• High-ranking officials at international organizations
• CEOs from industry and civil society
• Young professionals and students

GOALS
• Improve health worldwide
• Find answers to health challenges, guided by science
• Bring together stakeholders from all sectors and all regions of the world
• Facilitate open dialogue guided by science
• Strengthen collaboration
• Set health agendas
• Foster global health as a key political issue
• Promote the global health debate in the spirit of the UN Sustainable Development Goals (SDGs)

RESULTS
• M8 Alliance Declaration
• Statements
• Recommendations for national academies, governments and international organizations

M8 ALLIANCE
The M8 Alliance of Academic Health Centers, Universities and National Academies is the academic foundation of the World Health Summit. This unique network currently consists of 31 members worldwide.

EVENTS & INITIATIVES
• WHS Global Health Dialogues
• Side Events
• Partner Events
• Launches
• New Voices in Global Health
• IAP Young Physician Leaders

GENERAL TOPICS

• Access to Essential Medicine
• Big Data
• Biomedical Research
• Climate Change and Health
• Digital Innovation
• Drugs and Vaccines
• Evolutionary Medicine
• Global Action Plan for Healthy Lives and Well-being for All
• Global Health Security
• Health in All Policies
• Health Systems Strengthening
• Pandemic Preparedness
• Patient Safety
• Planetary Health
• Sustainable Development Goals (SDGs)
• Translational Science
• Universal Health Coverage
At the World Health Summit 2023, global health experts from around the world gathered in Berlin and online to find solutions for pressing global health challenges of our time. Convened under the theme “A Defining Year for Global Health Action”, the focus was on topics such as climate change and health, pandemic prevention, digital technologies, the role of G7 and G20 in global health, and 75 years of WHO. The mission and vision of the World Health Summit remain as relevant as ever: To improve health worldwide through collaboration and open dialogue by bringing together stakeholders from science, politics, the private sector, and civil society from all regions of the world.

IN NUMBERS

- **12,000+** participants live online
- **3,100** participants on-site in Berlin
- **1,500** participants on-site at the opening ceremony on October 15
- **50+** partner events and special sessions
- **370** speakers
- **106** countries
- **63** sessions
- **92** hours broadcasting time
- **37,000** views of all session videos on World Health Summit and WHO YouTube channels as of October 31
- **1,000** reports in international media
- **496,000** impressions of @WorldHealthSmt Twitter/X posts in October 2023
- **139,000** impressions of World Health Summit LinkedIn posts in October 2023
- **80,000** website visits of www.worldhealthsummit.org in October
- **52%** female speakers
- **48%** male speakers
- **106** countries
- **63** sessions
- **92** hours broadcasting time
- **37,000** views of all session videos on World Health Summit and WHO YouTube channels as of October 31
- **1,000** reports in international media
- **496,000** impressions of @WorldHealthSmt Twitter/X posts in October 2023
- **139,000** impressions of World Health Summit LinkedIn posts in October 2023
- **80,000** website visits of www.worldhealthsummit.org in October

CENTRAL TOPICS

- Learning from COVID-19 for Future Pandemic Prevention, Preparedness and Response
- Recommitting to Universal Health Coverage
- Sustainable Health for People and Planet
- G7/G20 Measures to Enhance Global Health Equity and Security
- Harnessing the Power of Digital Technologies for Global Health
- World Health Organization’s 75th Anniversary
- Innovations to Accelerate the Fight Against Tuberculosis
- Global Financing Facility (GFF) Pledging Event
“The Summit brings together a wide range of views and provides an environment for open discussions. You are thus laying the foundation for political decisions based on knowledge and good sense. When disinformation campaigns threaten to discredit research findings, help can be found by engaging in scientific dialogue and by pooling expertise. The WHS and you as its participants embody both these elements.”

OLAF SCHOLZ
Chancellor of the Federal Republic of Germany

“I am delighted to be a Patron alongside Chancellor Olaf Scholz and WHO Director-General Tedros Adhanom Ghebreyesus. As our world is shaken by multiple crises, our work to enhance cooperation, coordination and solidarity at the international level is more important than ever, in order to be better able to face future health threats and emergencies, together.”

EMMANUEL MACRON
President of the Republic of France

“Which leads to the third lesson: the importance of cooperation and multi-stakeholder collaborations, such as those fostered at the World Health Summit. The lesson of the pandemic is clear: we can only face shared threats with a shared response, based on a shared commitment to solidarity and equity.”

TEDROS ADHANOM GHEBREYESUS
Director-General of the World Health Organization (WHO)

PATRONS

PRESIDENTS

AXEL R. PRIES
World Health Summit President

ADNAN HYDER
International President 2023
Senior Associate Dean for Research and Professor of Global Health
The George Washington University
Milken Institute School of Public Health
United States of America
SUNDAY, OCTOBER 15

“Humanity faces so many health challenges now, from war to the climate crisis; deepening poverty and growing hunger; rapidly depleting natural resources and natural disasters, and of course, global and regional disease outbreaks.”

TEDROS ADHANOM GHEBREYESUS
Director-General, World Health Organization (WHO)

“This is a seminal year in global health and as we consider all the high-level political discussions that you’ve already heard about, it is about acknowledging here today that we all have a role to play and can play our part.”

AYOADE ALAKIJA
Ambassador, World Health Summit

“Health is the ultimate narrative of hope. And only through intentional partnerships and meaningful cooperation we can collectively address the global health challenges that we are facing and the systemic inequalities that my generation is living through.”

OMNIA EL OMRANI
Youth Envoy to the President of the UN 27th Climate Change Conference (COP27)
“We talked about investments today, we talked about true partnerships, we talked about collaboration. And this will really be it: That we put in our part and the others will be putting their part. And then we can move on.”

ROSE GANA FOMBAN LEKE
Director, Biotechnology Centre, Université de Yaoundé

“The worldwide global health community has a responsibility: We have to strengthen the spirit of international cooperation working for life and humanism on earth.”

AXEL R. PRIES
World Health Summit President

“If we want to achieve better health outcomes for the world’s poor, which includes just about half of the population, then we need to develop more effective financing mechanisms that help the Global South build up its public health systems and to create robust and responsive domestic infrastructure.”

MIA AMOR MOTTLEY
Prime Minister, Barbados

“The World Health Summit is the ideal setting for this crucial discussion. With its unique combination of expertise and experience, perspective, and political drive.”

STELLA KYRIAKIDES
Commissioner for Health and Food Safety, European Commission
“There’s a big need, we also have lots of solutions. Solutions that have been delivered in many settings but not all. And consequently, we’re not waiting for the solutions to arrive – we have the solutions – and we know they can be delivered and scaled rapidly.”

CHRISTOPHER ELIAS
President, Global Development, Bill & Melinda Gates Foundation

“Money is the first important step. But that is not enough. We need country-led solutions in every country, we need the engagement of every country.”

SVENJA SCHULZE
Federal Minister for Economic Cooperation and Development, Germany

“Prioritizing the needs of women and girls is as essential as any other type of medicine that is going to heal a troubled world. A world that needs peace and women to lead that.”

NATALIA KANEM
Executive Director, United Nations Population Fund (UNFPA)

“Young people cannot be ignored. We cannot be ignored. If you talk about education, gender, health, you cannot go forward without the youth’s voice in those spaces.”

CHRISTINA CHILIMBA
Founder and Executive Director, All for Youth

“Let’s remember that trust is restored when ordinary people feel the very tangible benefits of policies designed to protect their lives and livelihoods.”

HANS KLUGE
Regional Director for Europe, World Health Organization (WHO)
TUESDAY, OCTOBER 17

“We need to make sure that the things we are doing for the community are led by the community and evaluated by the community.”

WILHEMINA S. JALLAH
Minister of Health, Liberia

“We have to think about how to build capacities not only for Africa but for a globally distributed system.”

GITHINJI GITAHİ
Global CEO, Amref Health Africa

“The World Health Summit reflects the interdependence between human health and environmental health. There is growing awareness worldwide of this connection.”

STEFFI LEMKE
Federal Minister for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection, Germany

“We are proposing something which is just common sense: Stop fighting with nature, look for sources of energy which will not kill you and suffocate you, promote cities that will have a more sustainable transportation system, protect people who are more vulnerable and make sure that they have the health system we need.”

MARÍA NEIRA
Department of Environment, Climate Change and Health, World Health Organization (WHO)

monthly edition of WORLD HEALTH SUMMIT NEWS
to the World Health Summit network with
30,000 contacts worldwide
The M8 Alliance and the World Health Summit call for fair and strong multilateralism to improve universal health coverage and thus resilience to climate change.

To improve global health and to respond to the growing threats from climate change, the M8 Alliance calls to:

1. Move from fragmentation to cooperation and integration
2. Address disparities within and between countries
3. Address the needs of the most vulnerable

Health leaders at the World Health Summit support World Health Organization (WHO) commitment to build climate resilient, low carbon sustainable health systems.

In the joint statement they recognize the important role of the national and local health sector to

1. Build better, more climate resilient and low-carbon health systems
2. Implement public health measures to protect from the range of climate risks to health
3. Provide evidence and health assessments of the impacts of policy action and
4. Guide other sectors whose actions impact substantially on health, carbon emissions and climate resilience

Read the full declarations on our website.
At the World Health Summit 2023 ...

... the Global Financing Facility’s pledging event was held to secure funding to improve health and rights for 250 million women, children and youth. Governments and philanthropies committed USD 445 million funding towards that goal.

... the Equity 2030 Alliance was launched hosted by United Nations Population Fund (UNFPA), The Government of Ghana, and The Government of Norway. To normalize gender equity, the Alliance accelerates transformative norms and principles and introduces data-driven arguments and strategies for closing the gaps in women-focused and gender-inclusive health solutions in science, technology, and financing by 2030.

... UNICEF launched the Community Health Delivery Partnership (CHDP) to accelerate the implementation of national priorities for primary health care at the community level.

... “Health: A Political Choice – From Fragmentation to Integration” was launched. This official publication by the Global Governance Project features high-level contributions from World Health Summit speakers and global health leaders focusing on pressing global health topics.
“We need to ensure equity in access and in outcomes, and we need to ensure coherence with the ecosystem, all of us.”

JOY PHUMAPHI
Co-Chair, Global Preparedness Monitoring Board (GPMB)

“We need to take a much more holistic view of the emerging health needs in countries, bringing together infectious and non-communicable diseases.”

ANURADHA GUPTA
President of Global Immunization, Sabin Vaccine Institute

“It is important for us to elevate voices from a variety of different communities across the world.”

GARTH GRAHAM
Head, YouTube Health

“A healthier women’s population throughout the world will have a multiplier effect – not only in terms of women’s health, but their communities and their economies.”

KEVIN ALI
CEO, Organon

“You are a community in all your different functions, in different countries and you have learned that there is only one health on earth.”

AXEL R. PRIES
President, World Health Summit

“We women don’t want charity, we want power over our lives, over our world and their health.”

ILONA KICKBUSCH
Founding Director, Global Health Center, Graduate Institute of International and Development Studies

“Surveillance is really at the heart of things.”

CHRISTIAN DROSTEN
Director, Institute of Virology, Charité – Universitätsmedizin Berlin

“The most important thing is for us to commit ourselves to improving access to medicine globally. Asserting the true causes of problems and standing firm to realize improved access.”

SUNAO MANABE
Executive Chairperson and CEO, Daiichi Sankyo

“The evidence is showing that there are incredible inequalities of access to cancer care for women.”

ISABEL MESTRES MESA
CEO, City Cancer Challenge Foundation

“As a government, as a country, as a society, polio has taught us the importance of systems and structures for delivery.”

SANIA NISHTAR
Founder, Heartfile

“We should be asking questions relevant to the communities that are most affected.”

ALAN DANGOUR
Director of Climate and Health, Wellcome Trust
Under the theme of ‘Bridging the Science to Policy Gap for Global Health’ the World Health Summit Regional Meeting 2023 highlighted the essential role of evidence-based science for the development of global health policy.

The Regional Meeting 2023 brought together stakeholders from all relevant sectors and focused on joining forces for global health by creating a unique opportunity for knowledge exchange and partnership building. The conjunction between global health and development was a further focus.

**Selected topics of the World Health Summit Regional Meeting:**
- Global Health in a Political World
- Climate Change, Pandemics, Social Determinants of Health
- Confronting the Burden of NCDs
- Gender and Power
- Racism in Global Health
- Technology for Global Health
- Sustainable Giving in Global Health

**World Health Summit International President 2023**

**ADNAN HYDER**
Senior Associate Dean for Research and Professor of Global Health
The George Washington University Milken Institute School of Public Health, USA
The M8 Alliance is the academic foundation of the World Health Summit. A unique network of 31 leading international academic health centers, universities, and research institutions worldwide, it includes the InterAcademy Partnership (IAP), which represents all national academies of medicine and science.

All M8 Alliance members are committed to improving global health and working with political and economic decision-makers to develop science-based solutions to health challenges worldwide.

In addition to the annual World Health Summit in October in Berlin, the M8 Alliance organizes annual Regional Meetings, regular Expert Meetings, and Summer Schools in different parts of the world.

</table>
Manipal Academy of Higher Education (MAHE), India
Manipal Academy of Higher Education (MAHE) has over 35,000 students from 60+ nations. It is one of India’s leading academic and research institutions that provides graduate and postgraduate courses covering several key disciplines including Medicine and Pharmacy.

Milken Institute School of Public Health, USA
The Milken Institute School of Public Health at George Washington University was established in 1997 and is the only school of public health in Washington, DC.

Monash University, Australia
As Australia’s largest university – with approximately 60,000 students from over 170 countries—Monash has seven campuses: five in Victoria, one in Malaysia and another in South Africa.

National Taiwan University
Known for its diverse and international curriculum, National Taiwan University is made up of 11 colleges, 54 departments and 105 graduate institutes. It has a student body of around 30,000.

National University of Singapore
Founded in 1905, the National University of Singapore today consists of 16 different faculties and schools. Around 37,000 students can be found on its three campuses in Singapore and seven overseas locations.

NIMS University, India
NIMS University is a state private medical and technical university. It provides modern amenities and the highest caliber of education in a variety of degree courses. It is among the top emerging medical universities in India.

Russian Academy of Medical Sciences, Russia
Set up in 1944, the USSR Academy of Medical Sciences was considered the most prestigious scientific and medical organization in the Soviet Union. Its successor—the Russian Academy of Medical Sciences—was founded in 1992.

Sapienza University of Rome, Italy
Established in 1303 by Pope Boniface VIII, Sapienza is one of the oldest universities in the world. With about 115,000 students, it’s one of the largest in Europe as well.

Tehran University of Medical Sciences, Iran
The university is the oldest, largest, and most highly ranked comprehensive higher education institute in the field of medicine and public health in Iran, offering a wide range of courses and receiving applications from students from around the globe.

United Nations University International Institute for Global Health
UNU International Institute for Global Health is the designated UN think tank on global health and serves as a policy translation hub for UN member states, agencies and programmes. The Institute generates policy-relevant analysis by applying a gender lens to inform the development, implementation and evaluation of health programmes.

University of Montreal, Canada
A public research university that started with less than 100 students in 1878, the University of Montreal has more than 60,000 today. Comprised of 13 faculties and more than 60 departments, it has the highest sponsored research income in Quebec.

University of Geneva, Switzerland
Founded in 1559 as a theological and humanist seminary, the University of Geneva is renowned for emphasizing the unity of teaching and research. It’s the only tertiary-level educational institution of its kind in the region.

University of São Paulo, Brazil
Founded in 1934, the University of São Paulo arose from a combination of institutions, including a medical school. Today the largest university in Brazil is seen as the country’s most prestigious educational institution.

University of Paris, France
The University of Paris (UP) is one of the leading French research-intensive universities with over 60,000 students and covers a wide range of disciplines, with one of the most comprehensive and ambitious training offers. UP is a world-leading university in the fields of health sciences, physics, biology, earth and planetary sciences. UP is the result of the merger between Université Paris-Descartes, Université Paris-Diderot and the integration of the Institut de physique du globe de Paris, effective since January 2020.
LEADERSHIP

M8 ALLIANCE EXECUTIVE COMMITTEE

The M8 Alliance Executive Committee is elected by the M8 Alliance from amongst its members and has the purpose to speak and act for its interests. It represents the network publicly and assumes operative responsibility.
WORLD HEALTH SUMMIT COUNCIL

The World Health Summit Council advises in major strategic aspects concerning the WHS main conferences, other events and products as well as in the development of the WHS community and the global, regional and national positioning of the WHS.

CARSTEN SCHICKER
Managing Director, World Health Summit
WORLD HEALTH SUMMIT THROUGHOUT THE YEAR

WHS GLOBAL HEALTH DIALOGUES

Throughout the year, the World Health Summit organizes various formats and fosters several initiatives. The WHS Global Health Dialogues regularly bring together thought-leaders and decision-makers to discuss the most urgent global health topics in an exclusive and intimate setting.

By taking on a political-strategic focal point, the WHS Global Health Dialogues are developed in the context of relevant global health events like G7/G20 conferences or UN High-Level meetings, putting global health on the agenda of international politics as well as complementing the central topics of the World Health Summit.

In 2023, the topics of the WHS Global Health Dialogues included:

- Recommitting to Universal Health Coverage
- Harnessing the Power of Digital Technologies for Health
- 2023: A Defining Year for Global Health Action and Rethinking the Global Health Landscape
“On Monday, leaders gathering at the World Health Summit have a chance to turn political promises into reality by committing funds to the Global Financing Facility (…)”

THE GUARDIAN
United Kingdom

“First over to Berlin, where the World Health Summit is currently underway, a major conference on the most pressing health issues around the world.”

DEUTSCHLANDFUNK
Germany

“The Global Health Network Conference being held in Germany brings together stakeholders from politics, science, the private sector, and civil society to set the agenda for a healthier future.”
